SUMMARY

Front-end web developer with one-year experience, adept at blending creativity and analytical skills for visually appealing designs. Proven team player with meticulous attention to detail, contributing to seamless user experiences. Passionate about enhancing website aesthetics through innovative solutions

TECHNICAL SKILLS

- **Languages:** DSA with C++, Java
- **Frontend:** HTML, CSS, JavaScript, ReactJs
- **Database:** MySQL
- **Others:** GitHub, VS Code

CERTIFICATIONS

- HTML, CSS, and JavaScript for Web Developer | [Geeks for Geeks](#) Aug'23
- Data Structures and Algorithm | [Coursera](#) Sept'23
- Computer Networks | [Coursera](#) May'23

TRAINING

Training in Full Stack Web Development

Jun'23 - Aug'23

- Participated in practical training to learn Full Stack Development using React and Node.js. Explored combining front-end skills with React and backend capabilities with Node.js. Got hands-on experience with real-time coding, understanding how they work together to create strong and responsive web applications.
- Certificate:
<https://media.geeksforgeeks.org/courses/certificates/b28d5a9f9842b4054550bf6e5d7da511.pdf>

PROJECTS

E-commerce website

Sep'23 - Nov'23

- Technologies used: HTML, CSS, Javascript, Bootstrap, Node js, Express.
- Seamless shopping website that allows customers to browse and purchase products easily. Responsive design and secured payment gateways to ensure a secure and user-friendly platform

Portfolio website

Jan'23 - Feb'23

- The website showcases my skills, projects, and achievements in an engaging and user-friendly manner. By leveraging React's component-based architecture and Bootstrap's responsive framework, I created a visually appealing and mobile-friendly platform to highlight my work effectively..
